Greetings of 'Peace' and Compliments of the Season.

I pray for God's guidance and wisdom especially as preparations are in top gear for the upcoming Local Government Elections in Lagos State.

As the committee saddled with the responsibility of over seeing the APC primaries have reiterated their desire in ensuring that the best candidates who will compliment the efforts of the State Government at the Local Government level are presented, kindly permit me to introduce **Arc. He is from the Okepopo Area of Lagos Island (Gbotifa, Alof and Griffith Streets), his Paternal ancestral Neighbourhood.

“The Future Belongs to those who prepare for it”

The journey to the aspiration of Prince Adeniji Akinlusi into the Chairmanship of Lagos Island East Local Government Development Authority began immediately after the conclusion of the last general elections in 2019 Arc Akinlusi at the time set up a study group saddled with the task of undertaking a study of the critical Social and Economic issues of the LCDA This group comprised of Resident Stakeholders of the LCDA went round the local authority and identified all strategic issues which when tackled will have results far beyond the exact location of the identified problems as most issues were discovered to have serious negative multiplier effects on the communitie and are interconnected given the topography and interactions amongst the areas making up the LCDA The final result of this study is what has culminated into the framework for the Manifesto and will serve as a working document for the in-coming Chairman upon inauguration- Insha Allah.
